BORN IN THE NORDICS

4KΛΛD

4KAAD SPORTS EYEWEAR

We at 4KAAD are a Nordic sports eyewear brand born from the rugged beauty and clean design heritage of Scandinavia. Specializing in high-performance cycling eyewear, we blend minimalist aesthetics with cutting-edge lens technology built for demanding conditions. Our products are designed to perform in the toughest environments, just like the athletes who wear them.

Inspired by the clarity of Nordic light and the precision of Scandinavian design, we focus on function, comfort, and durability. Every detail serves a purpose. Our mission is to empower cyclists with eyewear that enhances vision, protects in all elements, and reflects the spirit of the North.

Ride with clarity . Ride with purpose . Ride Nordic

Where cutting-edge performance meets timeless design. Crafted in collaboration with elite cyclists, this modern, sculpted frame delivers seamless comfort and aerodynamic elegance.

Featuring high-performance XCvision photochromic lenses, it ensures flawless optical clarity and effortless light adaptation — for those who demand excellence on every ride.

HYDROPHOBIC

All 4KAAD Eyewear are treated with our premium Hydrophobic and Oleophobic treatments to ensure water, oil, and dirt bounce straight off your lenses. This treatment also introduces specific smudge-resistant qualities to our lenses while offering extra protection for Multi-Mirroring

HARD COAT FINISH

4KAAD puts a specialized anti-scratch coating on all performance and lifestyle lenses

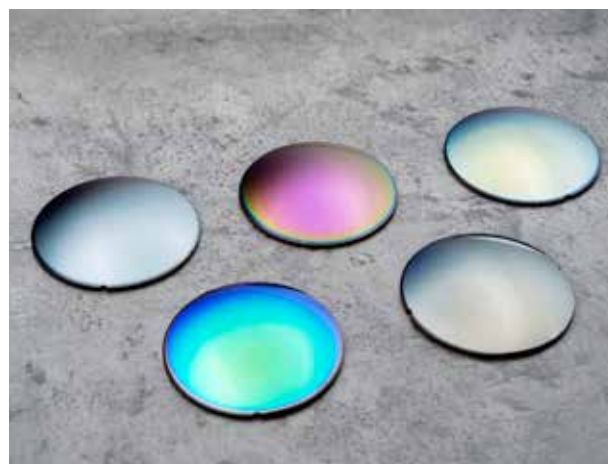

100% UV 400 PROTECTION

100% Blocking all light rays up to 400NM, including both UVA and UVB rays.

A COLOR FOR EVERY CONDITION

Unique and specific finishes for every type of performance condition or style.

AERODYNAMIC LAB

XC VISION Lens Technology

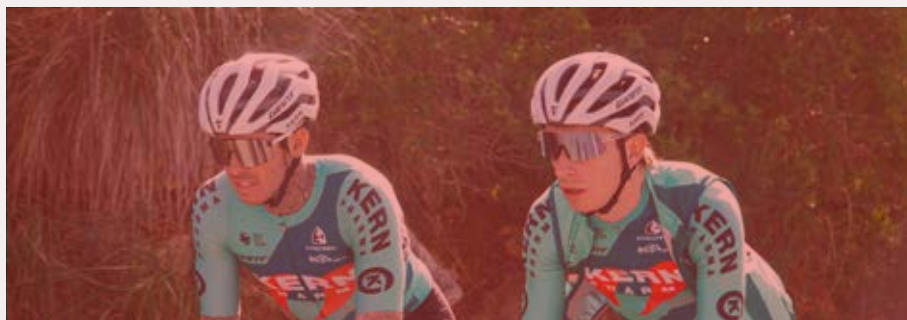

4KAAD Performance eyewear products are equipped with the latest lens technology to deliver precision lens sets and eyewear solutions to meet the highest optical standards.

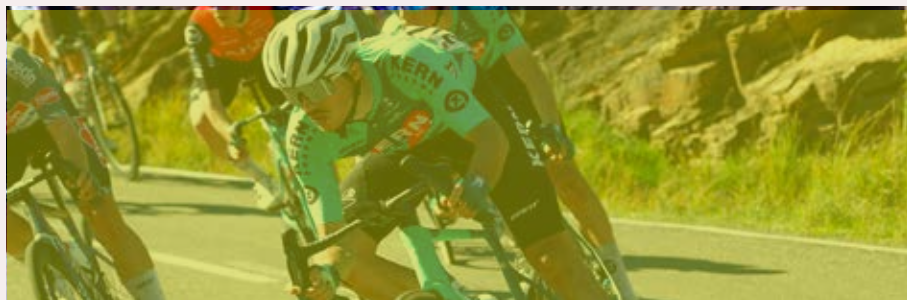

The materials and manufacturing techniques are selected and innovated to provide maximum safety and optimal visual clarity, even in the toughest conditions.

4KAAD SPORTS EYEWEAR

Introducing our state-of-the-art sports eyewear, designed to elevate your performance in every season.

Whether you're conquering the slopes in winter or hitting the trails in summer, our eyewear ensures perfect vision and unparalleled clarity.

With a lightweight frame that feels barely there, you'll experience ultimate comfort and freedom of movement. Engineered for athletes who demand the best, our 4KAAD eyewear is your perfect companion for any adventure.

See the world with precision, no matter the weather conditions.

Visible Light Transmission

The category number equates to a percentage of the VLT [Visible Light Transmission] that is, how much light the lens lets through. The higher the VLT the lighter the lens, conversely the lower the VLT the darker the tint will be, blocking more light coming through to the eye.

Category	UV Protection	Transmission Rate	Lens Tint	Recommended Use	Weather
0 	3-20%	80-100%	Clear	Comfort & indoor sports	
1 	20-57%	43-80%	Light	Low light conditions	
2 	57-82%	18-43%	Moderate	Average light conditions	
3 	82-92%	8-18%	Dark	Bright outdoor sports	  
4 	92-97%	3-8%	Very Dark	High glare & reflective environments	  

PULSE ACTIVE COLLECTION
